

LIGHT DUTY RACKING SYSTEMS

Page 60 - 82

IDEAL FOR SPACE

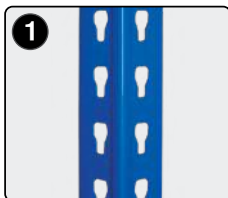

Boltless Rack

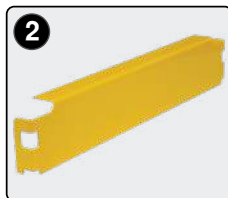

The **TTF Boltless Rack** minimizes setup time and offers a vast selection of heavy to light racking system requirements. Easy and fast to install and dismantle, **TTF Boltless Rack** can be applied to existing racking systems for increased cost savings in warehouse storage systems.

Sirim Test Report: 2003MA0257

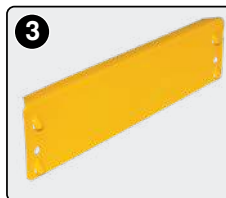

Angle Post with Rib (AP)

Reinforced with "Curvy Rib" to increase loading capacity and rigidity.

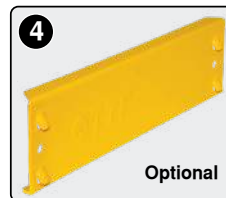

Center Support (CLS)

To support center of decking material and against longitudinal deflection.

Standard Beam (TRB)

To provide ultimate strength and stability.

Twin Rivet C Beam (TRC)

To provide ultimate strength and stability.

AP Stopper (APS47x4)

Protect floor from damaged.

Mobile Boltless Rack

TTF Mobile Boltless Rack systems are engineered to maximize your existing storage space efficiently. By eliminating the need for fixed aisles, these innovative systems compact multiple boltless racks into a significantly smaller footprint. This design provides the highest possible storage density for files, documents, and other items. Each individual bay is equipped with three adjustable shelves, offering versatile organization to suit your specific needs.

Dimension:

Height x Depth x Bay x Length x Shelf Levels x Decking Material

Rakku Boltless Rack

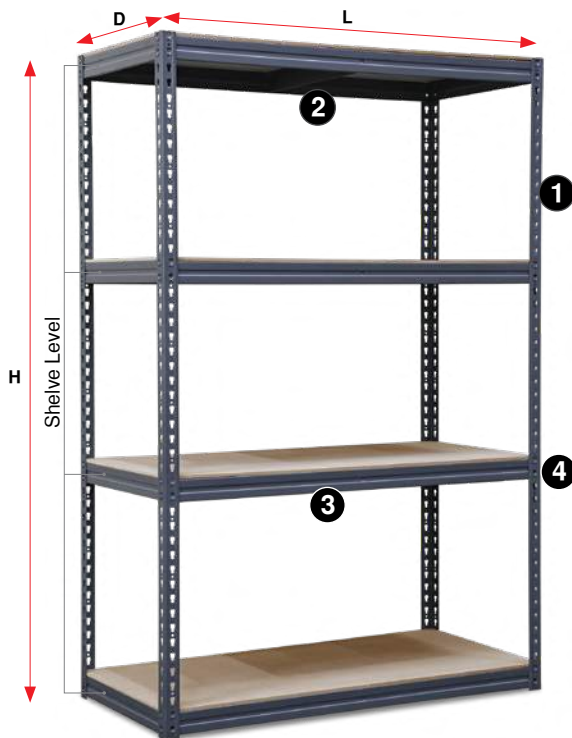

Rakku Boltless Rack our new design of rack are further development from our existing Boltless Rack concept, come with various choice of sizes. TTF **Rakku Boltless Rack** is designed for shop and retail usage. They have decking materials made of HDF board. It come with (mm) measurement.

TTF **Rakku Boltless Rack** is semi-customizable due to various size available, you can find a configuration that fits the specific layout of your shop. Whether it's small TTF **Rakku Boltless Rack** unit or large, TTF **Rakku Boltless Rack** will definitely help with increased vertical space usage, you can eventually achieve S.T.E.M philosophy.

Dimension:

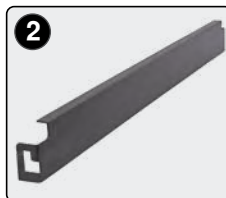

Height x Depth x Length x Shelf Levels x Decking Material

Height (mm)	1522	1828	2130	2435	2737	3040
Depth (mm)	300	400	450	600	-	-
Length (mm)	900	1200	1500	1800	2400	-
Shelve Level	2	3	4	5	6	-
Decking Material	High Density Fiber Board					
Loading Capacity	100 kg - 400 kg UDL / level					
Colour	<div style="display: flex; align-items: center;"> <div style="width: 15px; height: 15px; background-color: #444; margin-right: 5px;"></div> Dark Grey <div style="width: 15px; height: 15px; background-color: #ccc; margin-left: 10px; margin-right: 5px;"></div> Beige </div>					

Angle Post (RAP)

Reinforced with "Curvy Rib" to increase loading capacity and rigidity.

Center Support (RLS)

To support center of decking material and against longitudinal deflection.

Beam (RHB)

With total of 6 "Bending Rib" design to provide ultimate strength and stability. Premium gray colour matte paint provide scratch resistant.

Double Eagle Claw Hook

Double Eagle Claw Hook with enhance of strength and further improvement from existing Boltless Rack "Eagle Hook".

AP Stopper (APS47x4)

Protect floor from damaged.

Boltless Rack C/W Top Flooring

TTF innovative **Boltless Rack** system is applied in our c/w top flooring racking system. Lightning quick installation means increased storage capacity and maximizing space. This system creates another level of storage and saves additional warehouse costs. Highly stable, the **Boltless Rack c/w Top Flooring** is the ultimate solution to more room and more savings. TTF **Boltless Rack** systems are highly-adaptive to a multitude of applications. From mezzanine floors to aquarium display racks for exhibitions, our **Boltless Rack c/w Top Flooring** system is the ultimate chameleon to suit customer needs.

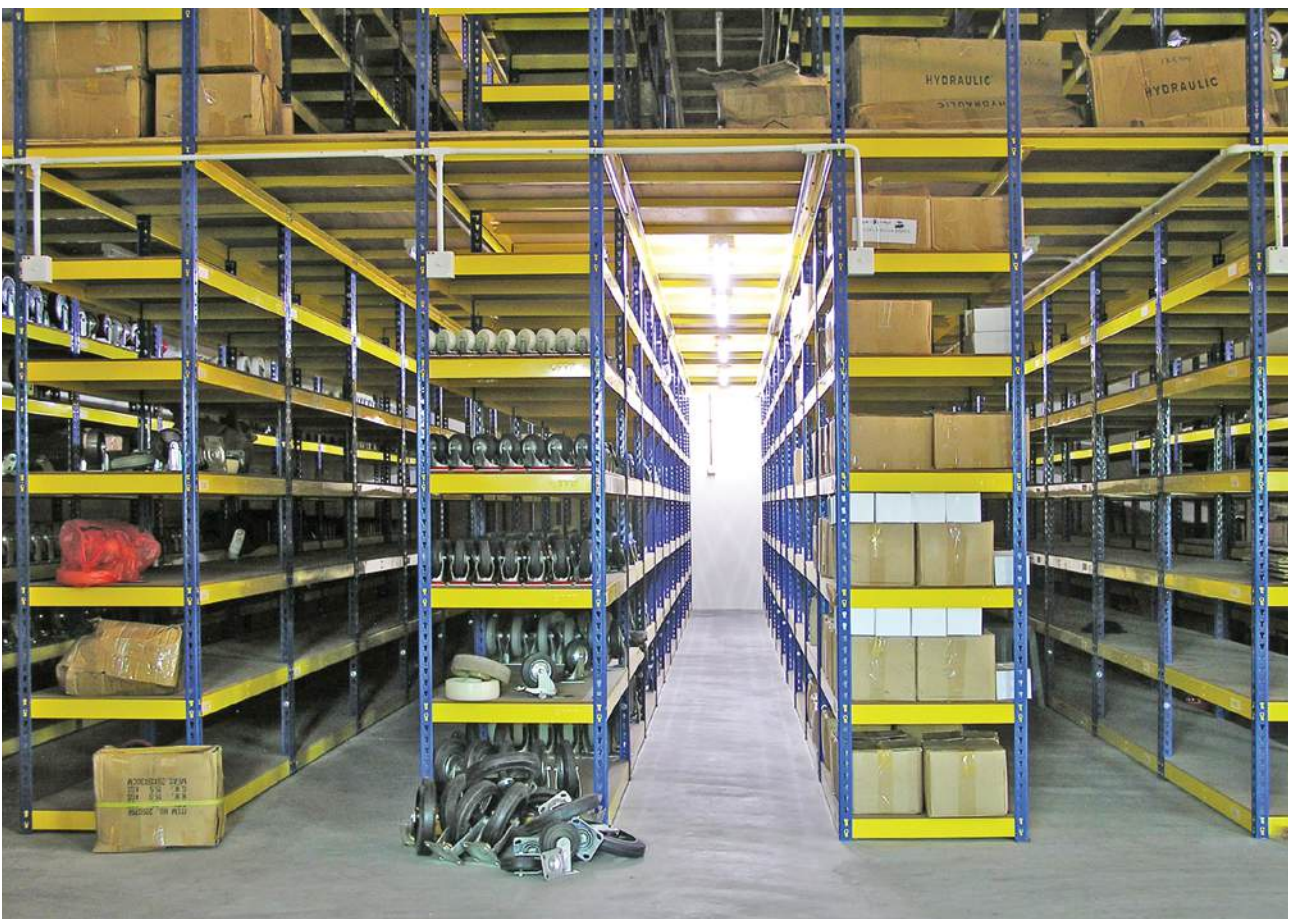

Multi-tier Storage Racking System

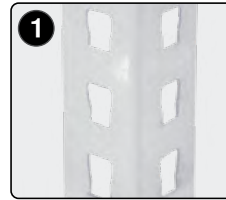

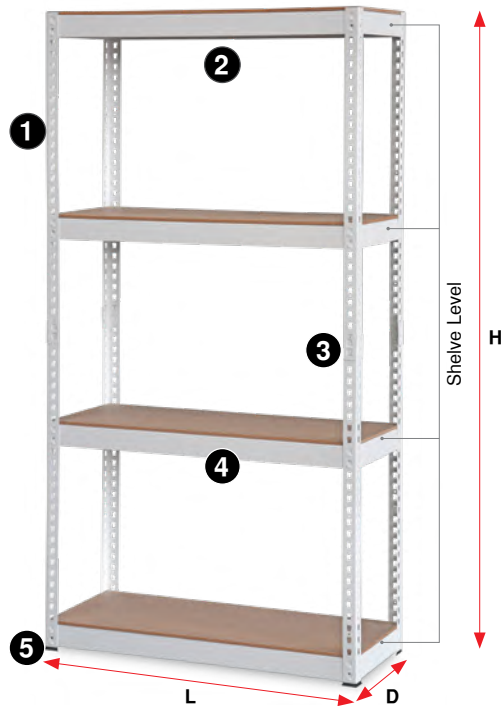

TTF innovative **Multi-tier Storage Racking System** is a 2-in-1 solution in today's world where space is a premium. Perfect for commercial or industrial locations, the design optimizes vertical space and offers instant access to stock handling. The system is a rack supported structure with versatile multi-tier application.

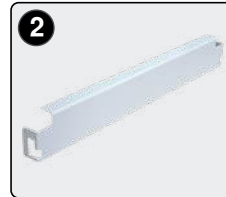

D.I.Y. Colour Rack

The **TTF D.I.Y. Colour Rack** design is available in fiber board shelves. It is quick and easy installation with a TTF Boltless Rack concept system makes it easy for home and office usage. The **TTF D.I.Y. Colour Rack** is supplied in one (1) carton box for convenient and transportation.

Angle Post (DP)

Stable support for light duty applications

Center Support (DLS)

To support center of decking material and against longitudinal deflection.

DP Joint (DPJ)

Joint the Angle Post to become individual rack.

Beam (DHB)

To provide ultimate strength and stability.

Bottom Stopper (BS32x4)

Protect floor from damaged.

All come in one (1) carton box

Dimension: Height x Depth x Length x Shelf Levels x Decking Material

Model	Dimension (mm) Height x Depth x Length	Shelf Level	Decking Material	Loading Capacity (UDL / level)	Colour
FB51236LG	1710 x 300 x 900	4	High Density Fiber Board	80 kg	Light Grey
FB51436	1710 x 350 x 900				White Black Light Grey
FB51448	1710 x 350 x 1200				Light Grey Black
FB51430-ES (Standard Rack)	1530 x 350 x 750				Beam Angle Post
FB571224BK-ES	1440 x 300 x 600			100 kg	Black

Remarks : FB51236LG limited to light grey colour only.

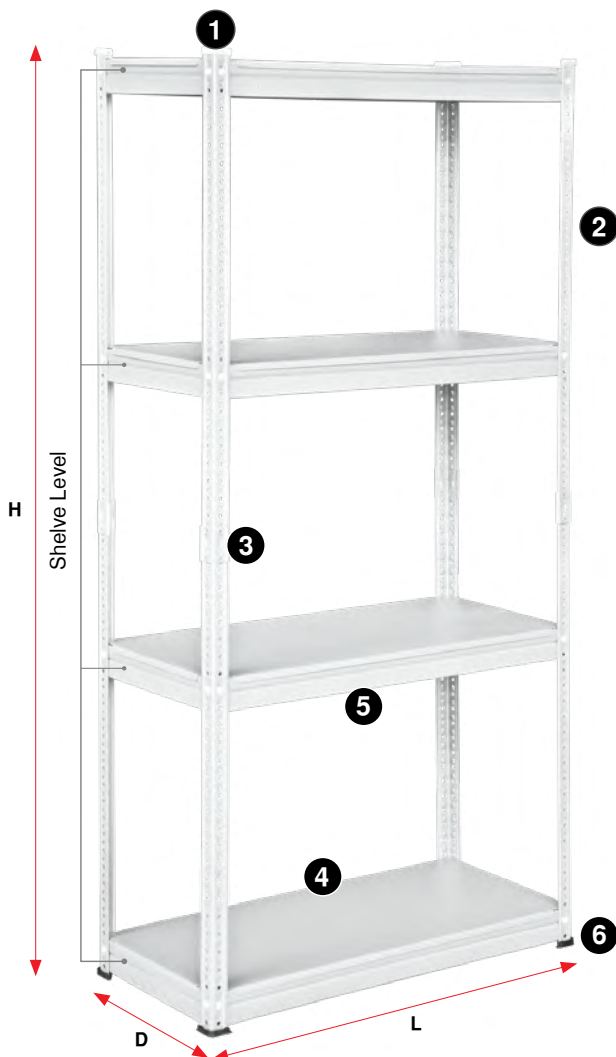

InStyle rack

With a loading capacity of 80kg uniformly distributive load (UDL), **TTF InStyle Rack** was designed as a light duty shelving system. Each shelf is finish with anti-rust epoxy powder coating.

Dimension:

Height x Depth x Length x Shelf Levels x Decking Material

Model	ISR 661232
Height (mm)	1680
Depth (mm)	300
Length (mm)	800
Shelf Level	4
Decking Material	Metal Shelf Plate
Loading Capacity	80kg UDL / Level
Colour	<input checked="" type="checkbox"/> Black <input type="checkbox"/> White

Top Stopper (TS32x4)

Sharp edges and pointed corners are covered.

Angle Post (ISP)

Reinforced with "Curvy Rib" to increase loading capacity and rigidity.

Joint Bracket (ISPJ)

Joint part of angle post to become individual rack.

Metal Shelf (ISMP)

Metal type decking, alternative for place with high humidity.

Beam (ISB)

To provide ultimate strength and stability.

Safety Pin and Bottom Stopper (PVCSTP32) & (BS32x4)

Safety Pin: Used for attaching beam to provide extra security for locking beam purpose.

Bottom Stopper: Protect floor from damaged.

Black

White

Convenient!

All come in one (1) carton box.

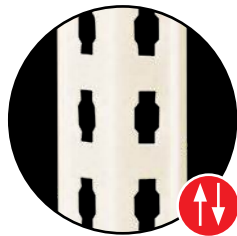

Easy Rack

With a loading capacity of 150kg uniformly distributive load (UDL), **TTF Easy Rack** was designed as a light duty shelving system.

Dimension:

Height x Depth x Length x Shelf Levels x Decking Material

Height (mm)	1500	1800	2100	-
Depth (mm)	300	450	600	-
Length (mm)	800	900	1200	-
Shelf Level	3	4	5	6
Decking Material	High Density Fiber Board			
Loading Capacity (kg)	Max load. 150kg UDL / level			
Colour	Beige			

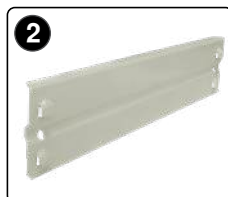

Can be install upside down

Design exclusive in TTF Rack only.

Angle Post (ESP)

Reinforced with "Curvy Rib" to increase loading capacity and rigidity.

Beam (ESB)

To provide ultimate strength and stability.

Center Support (ELS)

To support center of decking material and against longitudinal deflection.

Bottom Stopper (BS32x4)

Protect floor from damaged.

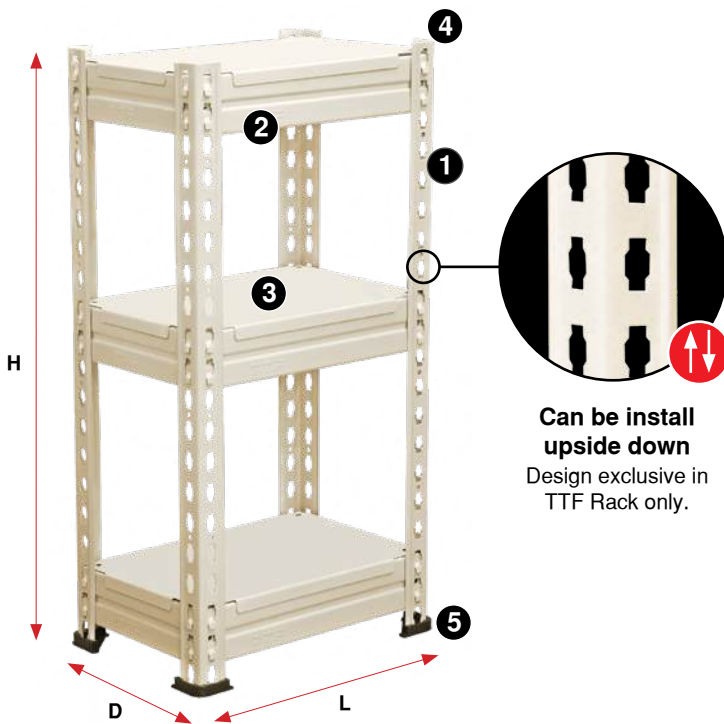

Mini Rack

TTF Mini Rack is designed in beige colour with a 60kg uniformly distributive load (UDL) of loading weight capacity. Organize small spaces efficiently with **TTF Mini Rack**. Perfect for workshops, offices, or home use, its ideal for storing tools, supplies, and more.

Dimension:

Height x Depth x Length x Shelf Levels x Decking Material

Height (mm)	600	750
Depth (mm)	200	
Length (mm)	300	600
Shelf Level	3	
Decking Material	Metal Shelf Plate	
Loading Capacity (kg)	Max load. 60kg UDL / level	
Colour	Beige, Black	

Can be install upside down
Design exclusive in TTF Rack only.

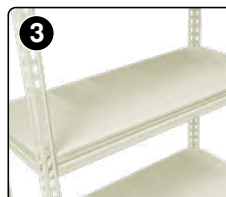

Angle Post (MSEP)

Reinforced with "Curvy Rib" to increase loading capacity and rigidity.

Beam (MHB)

To provide ultimate strength and stability.

Metal Shelf (EMSP)

Metal type decking, alternative for place with high humidity.

Top Stopper (TS32x4)

Sharp edges and pointed corners are covered.

Bottom Stopper (BS32x4)

Protect floor from damaged.

Vital Rack

With a loading capacity of 200kg uniformly distributive load (UDL), **TTF Vital Rack** was designed as a light duty shelving system. Each shelf is finish with anti-rust epoxy powder coating.

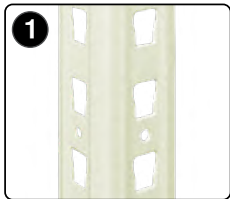

Dimension:

Height x Depth x Length x Shelf Levels x Decking Material

Height (mm)	1500	1800	2100	2400	-
Depth (mm)	300	450	600	-	-
Length (mm)	900	1200	-	-	-
Shelf Level	4	5	6	(Customize available)	
Decking Material	High Density Fiber Board				
Loading Capacity (kg)	200kg UDL / level				
Colour	<div></div> Beige				

Trolley Vital Rack

Angle Post (VP)

Reinforced with "Curvy Rib" to increase loading capacity and rigidity.

Center Support (VLS)

To support center of decking material and against longitudinal deflection.

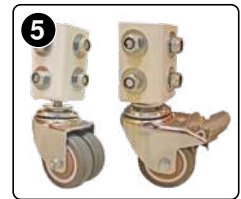

Beam (VHB)

To provide ultimate strength and stability.

Bottom Stopper (BS32x4)

Protect floor from damaged.

VP Castor Wheel (VPCW)

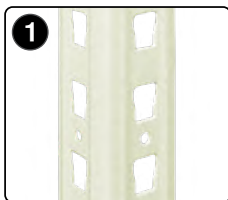

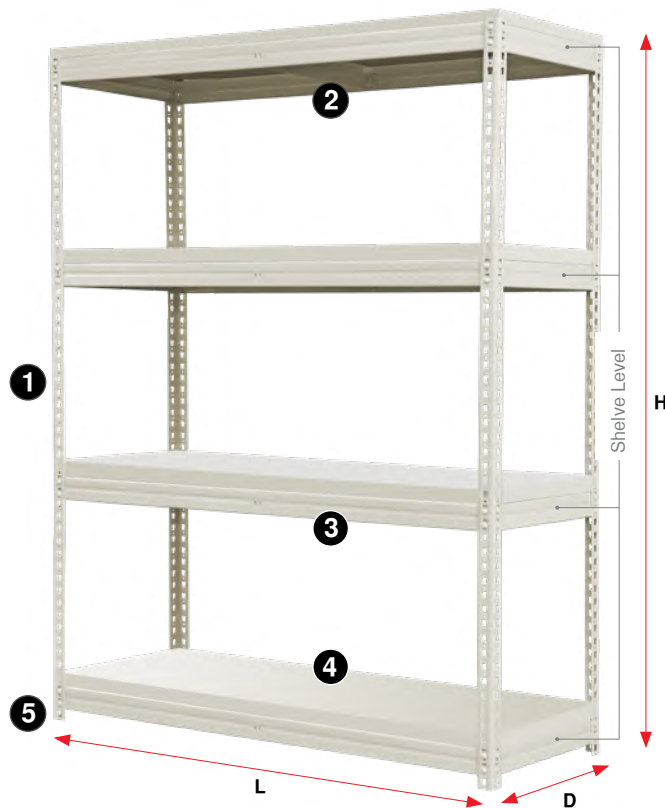

Vital Metal Rack

With a loading capacity of 200kg uniformly distributive load (UDL), **TTF Vital Metal Rack** was designed as a light duty shelving system. Each shelf is finish with anti-rust epoxy powder coating.

Dimension:

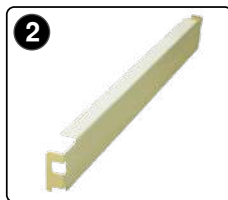

Height x Depth x Length x Shelf Levels x Decking Material

Height (mm)	1500	1800	2100	2400	-
Depth (mm)	450	600	-	-	-
Length (mm)	900	1200	-	-	-
Shelf Level	4	5	6	(Customize available)	
Decking Material	Metal Shelving Plate				
Loading Capacity (kg)	200kg UDL / level				
Colour	<div></div> Beige				

Angle Post (VP)

Reinforced with "Curvy Rib" to increase loading capacity and rigidity.

Center Support (VLS)

To support center of decking material and against longitudinal deflection.

Beam (VHB)

To provide ultimate strength and stability.

Metal Shelf Plate

Metal type decking, alternative for place with high humidity.

Bottom Stopper (BS32x4)

Protect floor from damaged.
